

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Murphy  
DOCKET NO.: 07-21126.001-R-1  
PARCEL NO.: 16-05-321-010-0000

The parties of record before the Property Tax Appeal Board are Chris Murphy, the appellant, by attorney Michael Griffin of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 8,549  
**IMPR.:** \$ 31,500  
**TOTAL:** \$ 40,049

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame construction containing 1,398 square feet of living area. The dwelling is 113 years old and has a full, unfinished basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two or three-story frame or masonry dwellings that range in age from 91 to 101 years old. The comparable dwellings range in size from 1,312 to 2,020 square feet of living area. Two comparables have fireplaces, and three have garages. The appellant did not include any data concerning basements for the properties. The comparables have improvement assessments ranging from \$9.85 to \$14.79 per square foot of living area. The subject's improvement assessment is \$27.07 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story

frame dwellings that range in age from 89 to 95 years old. The dwellings range in size from 880 to 1,536 square feet of living area. Each comparable has a full, unfinished basement and a garage. These properties have improvement assessments ranging from \$19.93 to \$25.18 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

Both parties presented assessment data on a total of eight equity comparables. The comparable numbered one by the appellant differed from the subject in exterior construction; the comparables numbered two and three were larger; and the comparable numbered two also differed in style. As a result, the appellant's comparables numbered one through three received reduced weight in the Board's analysis. The comparable numbered two by the board of review was much smaller than the subject and also received reduced weight. The Board finds the comparable numbered four by the appellant and the comparables numbered one, three and four by the board of review were most similar to the subject in size, style, and exterior construction, and they were generally similar to the subject in age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$14.79 to \$22.80 per square foot of living area. The subject's improvement assessment of \$27.07 per square foot of living area falls well above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
