

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Wesley Bass
DOCKET NO.: 07-21174.001-R-1
PARCEL NO.: 05-17-410-012-0000

The parties of record before the Property Tax Appeal Board are Wesley Bass, the appellant, by attorney Mitchell L. Klein of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$63,960
IMPR: \$96,905
TOTAL: \$160,865

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3,440 square feet of living area. The dwelling is 83 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story frame and masonry dwellings that range in age from 81 to 91 years old. The comparable dwellings range in size from 3,444 to 3,588 square feet of living area. Two comparables have full basements of which one basement is finished with a recreation room. One comparable has a partial unfinished basement. One comparable has central air conditioning. Each comparable has a fireplace. One comparable has a 2-car garage and one comparable has a 1-car garage. The comparables have improvement assessments ranging from \$27.91 to \$28.81 per square foot of living area. The subject's improvement assessment is \$35.17 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame and masonry dwellings that range in age from 66 to 78 years old. The dwellings range in size from 3,684 to 4,277 square feet of living area. Each comparable has a partial basement of which two basements are finished with a recreation room. Three comparables have central air conditioning. Three comparables have a fireplace and one comparable has two fireplaces. Each comparable has a 2-car garage. These properties have improvement assessments ranging from \$35.59 to \$42.20 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds a reduction is warranted.

The Board gave less weight to the board of review comparables because the comparables are newer and/or the basement area is dissimilar to the subject. The Board finds comparables #1 and #2 submitted by the appellant were most similar to the subject in location, size features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables have improvement assessments of \$27.91 and \$28.17 per square foot of living area. The subject's improvement assessment of \$35.17 per square foot of living area is above the assessment established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
