

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrew Evens
DOCKET NO.: 07-21271.001-R-1
PARCEL NO.: 16-18-223-010-0000

The parties of record before the Property Tax Appeal Board are Andrew Evens, the appellant, by attorney Arnold G. Siegel, of Siegel & Callahan, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,320
IMPR.: \$ 47,326
TOTAL: \$ 52,646

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 102-year old, two-story, frame, single-family dwelling. It contains 2,520 square feet of living area and is situated on a 5,320 square foot lot. Features include two and one half-baths, four bedrooms, and a full, unfinished basement.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted descriptive and assessment data for nine suggested comparables. The properties are improved with a two-story, masonry, frame or stucco, single-family dwelling, all of which are located within an eight block radius of the subject. They range: in age from 85 to 103 years; in size from 2,245 to 2,834 square feet of living area; and in improvement assessment from \$13.11 to \$16.20 per square foot of living area. The subject's improvement assessment is \$18.78 per square foot of living area. Amenities for the suggested comparable properties include one full and one half-bath, a full or partial, unfinished

basement, central air conditioning for four properties, and a one to three-car garage for eight properties. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's improvement assessment of \$47,326 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment data, as well as black and white photographs, relating to four suggested comparables located within the subject's neighborhood, two of which are located within a one-quarter mile radius of the subject. The properties are improved with a two-story, frame, single-family dwelling. They range: in age from 92 to 100 years; in size from 2,202 to 2,366 square feet of living area; and in improvement assessment from \$18.90 to \$19.58 per square foot of living area. Amenities for the properties include one full and one half-bath, three or four bedrooms, a full, unfinished basement, one fireplace for one property, and a two-car garage for three properties. Based upon this analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of 13 comparable properties for the Board's consideration. The Board finds that comparables #2, #4, #6 and #8 submitted by the appellant as well as comparables #2 and #4 submitted by the board of review are most similar to the subject in exterior construction, design, improvement size, location, and/or amenities. They are two-story, frame, single-family dwellings containing between 2,202 and 2,766 square feet of living area. In analysis, the Board accorded the most weight to these comparables. These comparables ranged in improvement assessment from \$13.11 to \$19.58 per square foot of living area. The subject's improvement assessment at \$18.78 per square foot is within the range established by these comparables.

After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
