

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Norman Cotler
DOCKET NO.: 07-21536.001-R-1
PARCEL NO.: 05-18-102-024-0000

The parties of record before the Property Tax Appeal Board are Norman Cotler, the appellant, by attorney Mitchell L. Klein of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 20,944
IMPR.: \$ 61,886
TOTAL: \$ 82,830

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3,023 square feet of living area. The dwelling is 49 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace, and a two-car attached garage. The dwelling is located in Glencoe, New Trier Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of the overvaluation argument, the appellant submitted an appraisal report in which a market value of \$825,000 was estimated for the subject property as of June 20, 2007. The appraiser developed the sales comparison approach in estimating the market value of the subject property. The appraiser considered four comparable properties that sold from June 2006 through June 2007 for prices that ranged from \$820,000 to \$912,000. In the brief, the appellant's counsel requested that the three-year median level of assessments on class 2 property of 10.04% in Cook County be applied to the appraiser's finding of market value and that the subject's total assessment be reduced to \$82,830.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$112,975 was disclosed. The subject's assessment reflects a market value of \$1,125,249 or \$372.23 per square foot of living area, land included, using the 2007 three year average median level of assessments for class 2 property of 10.04% as determined by the Illinois Department of Revenue. The board of review presented no market value evidence. Instead, the board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame, masonry, or frame and masonry dwellings that range in age from 63 to 71 years old. The comparables have the same assigned neighborhood and classification codes as the subject, and three are located in another municipality. The dwellings range in size from 3,001 to 4,102 square feet of living area. One dwelling has a partial finished basement, and three have unfinished basements, either full or partial. Each comparable has central air conditioning and one to three fireplaces, and three comparables have a two-car attached garage. These properties have improvement assessments ranging from \$108,004 to \$122,814 or from \$29.94 to \$36.79 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney noted that the board of review had not addressed the market value claim made by the appellant.

After reviewing the record and considering the evidence, the Board finds it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code 1910.65(c)). Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). After an analysis of the evidence in the record, the Board finds a reduction in the subject's assessment is warranted.

The Board finds the appellant's appraisal report is the best evidence of the subject's market value as of the January 1, 2007 assessment date. The appraiser estimated a market value of \$825,000 for the subject property as of June 20, 2007. The subject's assessment reflects a market value of \$1,125,249 and is in excess of the market value estimate contained in the appraisal report. The board of review submitted four equity comparables that did not address the overvaluation argument. The Board finds that the board of review did not refute the appellant's market value conclusion contained in the appraisal report. Thus, the Board finds the subject has a market value of \$825,000 and the

2007 three-year median level of assessments for Cook County Real Property Assessment Classification Ordinance Class 2 property of 10.04% as determined by the Illinois Department of Revenue shall apply. (86 Ill.Admin.Code 1910.59(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
