

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Toma  
DOCKET NO.: 07-21574.001-R-1  
PARCEL NO.: 09-24-324-003-0000

The parties of record before the Property Tax Appeal Board are Chris Toma, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,309  
**IMPR.:** \$30,360  
**TOTAL:** \$34,669

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one-story dwelling of masonry construction containing 1320 square feet of living area. The dwelling is 47 years old. Features of the home include a full, unfinished basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story masonry or frame and masonry dwellings that range in age from 52 to 54 years old. The comparable dwellings range in size from 1516 to 1610 square feet of living area. All have central air conditioning, but all lack basements. One has a fireplace. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$19.72 to \$19.81 per square foot of living area. The subject's improvement assessment is \$23.56 per square foot

of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story masonry dwellings that range in age from 51 to 56 years old. The dwellings range in size from 1201 to 1286 square feet of living area. Features include full basements, two of which are finished, and one and one-half-car to two and one-half-car garages. One has central air conditioning. These properties have improvement assessments ranging from \$23.50 to \$25.20 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the appellant's comparables #1, #2 and #3 should be given reduced weight in the Board's analysis because they were of a different exterior construction than the subject. The Board finds the comparables submitted by the board of review were closer in size to the subject than was the appellant's comparable #4 and gives the appellant's comparable less weight. The Board also finds that all of the board of review's comparables had amenities superior to the subject in that all had garages not enjoyed by the subject and two also had finished basements. The most similar comparable, but for the garage, was the board of review's comparable #1. It had an improvement assessment of \$23.50 per square foot of living area. The subject's improvement assessment of \$23.56 per square foot of living area is higher than that comparable's assessment even though the comparable has a garage not enjoyed by the subject. After considering adjustments and the differences in both

parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
