

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Mansheim  
DOCKET NO.: 07-21575.001-R-2  
PARCEL NO.: 05-21-407-004-0000

The parties of record before the Property Tax Appeal Board are Thomas Mansheim, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 30,309**  
**IMPR.:    \$ 226,650**  
**TOTAL:    \$ 256,959**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of stucco construction containing 3434 square feet of living area. The dwelling is one year old. Features of the home include a full, finished basement, central air conditioning, three fireplaces and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as two-story frame or frame and masonry dwellings that range in age from one to 59 years old. The comparable dwellings range in size from 2745 to 3040 square feet of living area. Features include central air conditioning and fireplaces. Three have partial basements, and one has a full, finished basement. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$33.11 to

\$33.47 per square foot of living area. The subject's improvement assessment is \$66.00 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on one comparable property consisting of a two-story masonry dwelling that is seven years old. The dwelling has 3265 square feet of living area. Features include a full, finished basement, central air conditioning, two fireplaces and a two-car garage. It has an improvement assessment of \$69.90 per square foot of living area. The board of review indicated the subject sold in June of 2006 for \$2,570,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1, #2 and #4 should be given reduced weight in the Board's analysis because they were much older than the subject. The Board finds the remaining two comparables submitted by the parties were similar to the subject in most property characteristics, but both differed from the subject in exterior construction. These two comparables had improvement assessments of \$33.25 and \$69.90 per square foot of living area. The subject's improvement assessment of \$66.00 per square foot of living area is between the two comparables but much closer to the one provided by the board of review. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted. Although the appeal

was based on equity, the Board notes the June 2006 sale price of the subject indicates that the subject's assessment is in line with its market value.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
