

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jeff Marwil  
DOCKET NO.: 07-21582.001-R-1  
PARCEL NO.: 05-27-410-015-0000

The parties of record before the Property Tax Appeal Board are Jeff Marwil, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 26,048  
**IMPR.:** \$ 115,043  
**TOTAL:** \$ 141,091

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of stucco construction containing 3839 square feet of living area. The dwelling is 99 years old. Features of the home include a partial, finished basement, central air conditioning, two fireplaces and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as two-story stucco, frame or frame and masonry dwellings that range in age from 94 to 129 years old. The comparable dwellings range in size from 3225 to 4023 square feet of living area. Three have partial basements, and one has a full, unfinished basement. One has central air conditioning and a fireplace. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$21.62 to \$26.00 per square foot of living area. The subject's

improvement assessment is \$29.97 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story stucco dwellings that are 99 or 104 years old. The dwellings range in size from 3450 to 3861 square feet of living area. Features include full basements, two of which are finished, one or two fireplaces and two-car garages. These properties have improvement assessments ranging from \$30.96 to \$31.72 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1, #2 and #3 should be given reduced weight in the Board's analysis because the first was much older and smaller than the subject and the next two were of different exterior construction than the subject. The Board finds the remaining four comparables submitted by the parties were most similar to the subject although all lacked central air conditioning enjoyed by the subject. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$26.00 to \$31.72 per square foot of living area. The subject's improvement assessment of \$29.97 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the

Docket No: 07-21582.001-R-1

subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
