

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bruce Koepfgen  
DOCKET NO.: 07-21587.001-R-1  
PARCEL NO.: 05-17-312-007-0000

The parties of record before the Property Tax Appeal Board are Bruce Koepfgen, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 121,863  
**IMPR.:** \$ 288,434  
**TOTAL:** \$ 410,297

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of stucco construction containing 7605 square feet of living area. The dwelling is 79 years old. Features of the home include a partial, unfinished basement, central air conditioning and a fireplace.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story stucco or masonry dwellings that range in age from one to 90 years old. The comparable dwellings range in size from 6677 to 9324 square feet of living area. Features include central air conditioning and fireplaces. Three have full basements, two of which are finished, and one has a partial basement. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$19.94 to \$34.71 per square foot of living area. The subject's improvement assessment is \$37.93 per square foot of living area.

Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story stucco dwellings that range in age from 81 to 85 years old. The dwellings range in size from 5958 to 7462 square feet of living area. Features include full or partial basements, two of which are finished and two to four fireplaces. Two have central air conditioning, and three have three-car or four-car garages. The board of review indicated the subject and two of the comparables were in deluxe condition. These properties have improvement assessments ranging from \$38.70 to \$40.83 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1, #2 and #3 should be given reduced weight in the Board's analysis because the first two were of a different exterior construction than the subject and the last was much larger and newer than the subject. The Board finds the board of review's comparable #4 should receive less weight because it was much smaller than the subject. The Board finds the remaining comparables submitted by the parties were generally similar to the subject. These comparables had improvement assessments that ranged from \$34.71 to \$39.12 per square foot of living area. The subject's improvement assessment of \$37.93 per square foot of living area is within the range established by the most similar comparables and is lower than the \$39.12 per square foot assessment of the board of review's comparable #1, which is identified as being in

deluxe condition similar to the subject. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
