

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Remsen Henry
DOCKET NO.: 07-21616.001-R-1
PARCEL NO.: 05-28-410-043-0000

The parties of record before the Property Tax Appeal Board are Remsen Henry, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 19,272
IMPR: \$ 37,241
TOTAL: \$ 56,513

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of stucco construction containing 1215 square feet of living area. The dwelling is 88 years old. Features of the home include a full, unfinished basement and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story or one and one-half-story frame, masonry or frame and masonry dwellings that range in age from 51 to 129 years old. The comparable dwellings range in size from 1050 to 1320 square feet of living area. Three have partial basements, and one has a full, finished basement. One has central air conditioning. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$24.02 to \$25.77 per square foot of living area. The subject's improvement assessment is \$30.65 per square foot

of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story stucco dwellings that range in age from 45 to 96 years old. The dwellings range in size from 1113 to 1440 square feet of living area. Features include full basements, two of which are finished, and two-car or two and one-half-car garages. Two have central air conditioning, and one has a fireplace. These properties have improvement assessments ranging from \$30.54 to \$35.74 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables should be given reduced weight in the Board's analysis because comparable #1 differed from the subject in design and exterior construction and the other three differed from the subject in age and exterior construction. The Board also finds the board of review's comparable #3 should be given less weight because it was much newer than the subject. The remaining three comparables submitted by the board of review were most similar to the subject although all varied somewhat from the subject in amenities. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$30.54 to \$35.74 per square foot of living area. The subject's improvement assessment of \$30.65 per square foot of living area is within the range established by the most similar comparables.

After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
