

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Donna-Lee Trotter
DOCKET NO.: 07-21625.001-R-1
PARCEL NO.: 05-27-404-018-0000

The parties of record before the Property Tax Appeal Board are Donna-Lee Trotter, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 103,241
IMPR.: \$ 237,914
TOTAL: \$ 341,155

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 2790 square feet of living area. The dwelling is 53 years old. Features of the home include central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story or one and one-half-story masonry dwellings that range in age from 50 to 80 years old. The comparable dwellings range in size from 2643 to 3478 square feet of living area. Two have partial basements, and two have full basements, one of which is finished. Three have central air conditioning, and three have fireplaces. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$74.59 to \$89.94 per square foot of living area. The appellant indicated the subject's improvement assessment is \$92.49 per square foot of living area based on an improvement

assessment of \$258,060. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story frame, masonry or frame and masonry dwellings that range in age from 38 to 50 years old. The dwellings range in size from 2514 to 4314 square feet of living area. Features include full or partial, finished basements, central air conditioning, one to three fireplaces and one-car to two and one-half-car garages. These properties have improvement assessments ranging from \$76.03 to \$110.87 per square foot of living area. The board of review indicated the subject has an improvement assessment of \$85.27 per square foot based upon an improvement assessment of \$237,914. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Based upon the property characteristics printout sheets and the "Assessor Values Summary" filed with the board of review's evidence, the Board finds the current division of the subject's total assessment of \$341,155 is \$103,241 land and \$237,914 improvement, and the subject has an improvement assessment of \$85.27 per square foot.

The Board finds the appellant's comparables #1, #2 and #3 should be given reduced weight in the Board's analysis because the first is much larger than the subject and the other two are of a different design. The Board also finds the board of review's comparables #2, #3 and #4 should be given reduced weight in the Board's analysis because they are of different exterior

construction than the subject. The Board finds the remaining two comparables submitted by both parties were most similar to the subject. These comparables had improvement assessments of \$85.00 and \$89.94 per square foot of living area. The subject's improvement assessment of \$85.27 per square foot of living area is between those of the most similar comparables and is lower than the \$89.94 per square foot assessment of the appellant's own comparable #4. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
