

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonathan Sinclair  
DOCKET NO.: 07-21629.001-R-1  
PARCEL NO.: 05-34-302-011-0000

The parties of record before the Property Tax Appeal Board are Jonathan Sinclair, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 15,749**  
**IMPR.: \$ 106,654**  
**TOTAL: \$ 122,403**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame construction containing 2624 square feet of living area. The dwelling is two years old. Features of the home include a full, finished basement, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as two-story masonry or frame and masonry dwellings that range in age from 10 to 58 years old. The comparable dwellings range in size from 2402 to 3248 square feet of living area. Two have partial basements, and one has a full, finished basement. All have central air conditioning, and three have fireplaces. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$29.13 to

\$31.64 per square foot of living area. The subject's improvement assessment is \$40.65 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on two comparable properties consisting of two-story frame or masonry dwellings that are three and seven years old. The dwellings have 2975 and 3044 square feet of living area. Features include full basements, one of which is finished, central air conditioning, one or two fireplaces and two-car garages. These properties have improvement assessments of \$45.86 and \$48.04 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1, #3 and #4 should be given reduced weight in the Board's analysis because they are much older than the subject and they have a different exterior construction than the subject. The Board also finds the appellant's comparable #2 should be given less weight because it is significantly larger than the subject and is of a different exterior construction. The Board finds the board of review's comparable #2 should be given less weight because it also is of a different exterior construction. The Board finds the board of review's comparable #1 was most similar to the subject overall. It had an improvement assessment of \$45.86 per square foot of living area. The subject's improvement assessment of \$40.65 per square foot of living area is lower than that of the most similar comparable. After considering adjustments and the

differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
