

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Syed Ghouse
DOCKET NO.: 07-21704.001-R-1
PARCEL NO.: 09-15-106-015-0000

The parties of record before the Property Tax Appeal Board are Syed Ghouse, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,256
IMPR.: \$ 24,808
TOTAL: \$ 34,064

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame and masonry construction containing 1196 square feet of living area. The dwelling is 49 years old. Features of the home include central air conditioning and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story frame, masonry or frame and masonry dwellings that range in age from 48 to 58 years old. The comparable dwellings range in size from 1062 to 1466 square feet of living area. One has a partial basement, two have central air conditioning, and one has a fireplace. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$10.64 to \$11.72 per square foot of living area. The subject's improvement assessment is \$20.74 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of one-story frame and masonry dwellings that range in age from 43 to 53 years old. The dwellings range in size from 1101 to 1196 square feet of living area. Features include full or partial basements, two of which are finished, and one-car or two-car garages. One has a fireplace, and all lack central air conditioning. These properties have improvement assessments ranging from \$21.38 to \$23.44 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #2, #3 and #4 should be given reduced weight in the Board's analysis because they were of different exterior construction than the subject and #2 also was substantially larger than the subject. The Board finds the remaining four comparables submitted by the parties were generally similar to the subject, but all lacked central air conditioning and the board of review's comparables all had basements. These four comparables had improvement assessments that ranged from \$10.64 to \$23.44 per square foot of living area. The subject's improvement assessment of \$20.74 per square foot of living area is within the range established by these comparables. It is higher than the appellant's comparable #1, which didn't have central air conditioning, and is lower than the board of review's very similar comparable #2, which had a partial, unfinished basement not enjoyed by the subject. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
