

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dennis Griner
DOCKET NO.: 07-21710.001-R-1
PARCEL NO.: 09-35-402-011-0000

The parties of record before the Property Tax Appeal Board are Dennis Griner, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 11,072
IMPR.: \$ 35,169
TOTAL: \$ 46,241

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame construction containing 1241 square feet of living area. The dwelling is 85 years old. Features of the home include a full, unfinished basement, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story or one and one-half-story frame or masonry dwellings that range in age from 83 to 99 years old. The comparable dwellings range in size from 1375 to 1531 square feet of living area. Three have full, unfinished basements, and one has a fireplace. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$25.18 to \$26.27 per square foot of living area. The appellant indicated the subject's improvement assessment is \$32.89 per square foot of living area based upon an improvement assessment of \$40,817 and a total assessment of \$51,889. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story frame dwellings that range in age from 78 to 86 years old. The dwellings range in size from 1254 to 1340 square feet of living area. Features include full basements, two of which are finished, fireplaces and one-car or two-car garages. One has central air conditioning. These properties have improvement assessments ranging from \$29.78 to \$31.70 per square foot of living area. The board of review indicated the subject has an improvement assessment of \$28.34 per square foot based on an improvement assessment of \$35,169 and a total assessment of \$46,241. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the best evidence of the current assessment of the subject is found in the board of review's decision dated 5/19/2008 and provided as a part of the appellant's evidence and in the property characteristics printout sheet provided as a part of the board of review's evidence. Both documents indicate the current total assessment is \$46,241, and the second document indicates the portion attributable to the improvement assessment is \$35,169. The Board finds the current improvement assessment is \$35,169, or \$28.34 per square foot of living area.

The Board finds the appellant's comparables should be given reduced weight in the Board's analysis because the first two were of a different design than the subject and the last two were of a different exterior construction than the subject. The Board finds the comparables submitted by the board of review were similar to the subject in design, exterior construction and most other property characteristics. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$29.78 to \$31.70 per square foot of living area. The subject's improvement assessment of \$28.34 per square foot of living area is lower than the range established by these comparables, including the \$29.78 and \$30.49 per square foot assessments of the board of review's comparables #1 and #3, which were most similar to the subject overall. After considering

adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
