

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gunter Drachenberg
DOCKET NO.: 07-21819.001-R-1
PARCEL NO.: 10-19-326-001-0000

The parties of record before the Property Tax Appeal Board are Gunter Drachenberg, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,531
IMPR.: \$ 30,920
TOTAL: \$ 39,451

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 1164 square feet of living area. The dwelling is 43 years old. Features of the home include a full, finished basement, central air conditioning and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story or one and one-half-story masonry dwellings that range in age from 50 to 58 years old. The comparable dwellings range in size from 1286 to 1451 square feet of living area. Three have full basements, one of which is finished, and one has a partial basement. Two have central air conditioning. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$19.41 to \$20.35 per square foot of living area. The subject's improvement assessment is \$26.56 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story masonry dwellings that range in age from 46 to 54 years old. The dwellings range in size from 1120 to 1236 square feet of living area. Features include full or partial basements, two of which are finished, central air conditioning and two-car or three-car garages. Two have fireplaces. One is located on the same block as the subject. These properties have improvement assessments ranging from \$24.72 to \$26.69 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparable #2 should be given reduced weight in the Board's analysis because it was of different design than the subject. The Board finds the remaining seven comparables submitted by the parties were generally similar to the subject, but the board of review's comparables were closer in size to the subject. These seven comparables had improvement assessments that ranged from \$19.41 to \$26.69 per square foot of living area. The subject's improvement assessment of \$26.56 per square foot of living area is within the range established by these comparables and is slightly higher than the \$26.42 per square foot assessment of the board of review's comparable #3, which was located on the same block as the subject and was nearly identical in features to the subject except the comparable lacked a finished basement enjoyed by the subject. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
