

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Charles Hoffman
DOCKET NO.: 07-21832.001-R-1
PARCEL NO.: 05-21-403-010-0000

The parties of record before the Property Tax Appeal Board are Charles Hoffman, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$34,544
IMPR: \$100,015
TOTAL: \$134,559**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3410 square feet of living area. The dwelling is 71 years old. Features of the home include a full, finished basement, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame and masonry dwellings that range in age from 65 to 101 years old. The comparable dwellings range in size from 3437 to 4003 square feet of living area. Two have full basements, one of which is finished, and two have partial basements. Three have central air conditioning, and all have fireplaces. The appellant did not include any data concerning garages for the comparables. Three are located on the same street as the subject. The comparables have improvement assessments ranging from \$27.78 to \$33.59 per square foot of living area. The subject's improvement assessment is \$35.86 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry or frame and masonry dwellings that are four or 141 years old. The dwellings range in size from 3224 to 4136 square feet of living area. Features include full basements, three of which are finished, two or four fireplaces and two-car to four-car garages. Three have central air conditioning. These properties have improvement assessments ranging from \$36.00 to \$41.88 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the board of review's comparables should be given reduced weight in the Board's analysis because they were about 70 years newer or older than the subject. Also, three of the board of review's comparables were of a different exterior construction than the subject. The Board finds the comparables submitted by the appellant were similar to the subject in age and exterior construction and were generally similar to the subject in other property characteristics. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$27.78 to \$33.59 per square foot of living area. The subject's improvement assessment of \$35.86 per square foot of living area is higher than the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
