

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kurt Mancillas
DOCKET NO.: 07-21879.001-R-1
PARCEL NO.: 05-29-209-028-0000

The parties of record before the Property Tax Appeal Board are Kurt Mancillas, the appellant, by attorney Sonja R. Johnson, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 66,776
IMPR.: \$ 101,224
TOTAL: \$ 168,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 32,104 square foot parcel improved with a 55-year-old, one and one-half story, single-family dwelling of masonry construction containing 3,551 square feet of living area and located in New Trier Township, Cook County. Features of the residence include three full bathrooms, a full-unfinished basement, central air-conditioning, three fireplaces and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one-story or one and one-half story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the

subject. Two of the comparables are located on the same street and block as the subject. The improvements range in size from 3,372 to 3,948 square feet of living area and range in age from 53 to 54 years old. The comparables contain two and one-half or three and one-half bathrooms, from one to four fireplaces and a multi-car attached garage. Three comparables contain a partial-finished or unfinished basement and three comparables have central air-conditioning. The improvement assessments range from \$11.81 to \$28.62 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$195,535. The subject's improvement assessment is \$128,759 or \$36.26 per square foot of living area. In support of the assessment the board submitted a property characteristic printout and descriptive data on one property suggested as comparable to the subject. The suggested comparable consists of a one-story, 32-year-old, 3,082 square foot, single-family dwelling of frame and masonry construction with the same neighborhood code as the subject. The comparable contains two and one-half bathrooms, a full-finished basement, central air-conditioning, a fireplace and a two-car garage. The improvement assessment is \$41.20 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables two, three and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, age, design, amenities and location and have improvement assessments ranging from \$22.87 to \$28.62 per square foot of living area. The subject's per square foot improvement assessment of \$36.26 falls above the range established by these properties. The Board further finds the two remaining comparables less similar to the subject in improvement size and/or age and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is inequitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
