

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ashley Boling/Molyneaux
DOCKET NO.: 07-21956.001-R-1
PARCEL NO.: 10-12-318-006-0000

The parties of record before the Property Tax Appeal Board are Ashley Boling/Molyneaux, the appellant, by attorney Julie Realmuto of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,504
IMPR.: \$ 40,557
TOTAL: \$ 50,061

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one and one-half story dwelling of frame construction containing 1,087 square feet of living area. The dwelling is 85 years old. Features of the home include a full, unfinished basement, a fireplace, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties. On the grid analysis, four of the seven are described as one-story frame, stucco, and masonry dwellings that range in age from 83 to 99 years old. Each of the comparables has a basement, and one has a fireplace. However, the appellant did not include any information concerning garages for these comparables. Three comparables had no detailed description provided other than classification and neighborhood codes, size, and improvement assessment. The seven comparable dwellings range in size from 1,040 to 1,301 square feet of living area. These properties have improvement assessments ranging from \$25.97 to \$28.03 per square foot of living area. The subject's improvement assessment is \$37.31 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" without any equity evidence in support of its assessed valuation of the subject property. The board of review submitted the subject's May 2006 sale price of \$500,000 but did not address the appellant's equity evidence.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

In this appeal, the Property Tax Appeal Board finds that none of the comparables submitted by the appellant were truly similar to the subject property. The appellant's comparables numbered five, six, and seven received little weight in the Board's analysis, because the appellant did not provide enough information to indicate whether they were actually comparable to the subject property. The appellant's comparables numbered one through four differed from the subject in style, and the appellant's comparables numbered two through four differed from the subject in exterior construction. As a result, the Board finds that there was no showing that these comparables had similar fair cash values as the subject, especially in light of the differences among the properties. As a result, the Board finds that the appellant failed to show that the subject property was being disproportionately assessed in relation to these properties. The board of review submitted information disclosing the subject sold in May 2006 for a price of \$500,000. The subject's assessment reflects a market value of approximately \$500,000 using the 2007 three-year median level of assessments for class 2 property of 10.04% as determined by the Illinois Department of Revenue. The market value reflected by the assessment is the same as the subject's sale price. The Board finds that, based on this limited evidence, the subject property's assessment is justified, and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
