

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Alexander  
DOCKET NO.: 07-21959.001-R-1  
PARCEL NO.: 10-24-218-023-0000

The parties of record before the Property Tax Appeal Board are David Alexander, the appellant, by attorney Julie Realmuto of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 7,752**  
**IMPR.:    \$ 28,772**  
**TOTAL:    \$ 36,524**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one and one-half story dwelling of frame construction containing 1,580 square feet of living area. The dwelling is 109 years old. Features of the home include a full, unfinished basement, central air conditioning, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties. On the grid analysis, four of the seven are described as one or one and one-half story frame or masonry dwellings that range in age from 82 to 116 years old. Each of the comparables has a basement, and one has a fireplace. The appellant did not include any information concerning garages for these comparables. Three comparables had no detailed description provided other than classification and neighborhood codes, size, and improvement assessment. The seven comparable dwellings range in size from 1,320 to 1,780 square feet of living area. These properties have improvement assessments ranging from \$17.05 to \$18.52 per square foot of living area. The subject's improvement assessment is \$20.83 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one and one-half story frame dwellings that range in age from 99 to 116 years old. The dwellings range in size from 1,126 to 1,347 square feet of living area. Two of the comparables have full, unfinished basements, and two have full, finished basements. One comparable has central air conditioning and a fireplace. Three comparables have two-car garages. These properties have improvement assessments ranging from \$21.19 to \$23.16 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The comparables submitted by the board of review were from 15% to 29% smaller in size than the subject and received reduced weight in the Board's analysis. The appellant's comparable numbered two differed in size and style from the subject, and the appellant's comparable numbered three differed in size and exterior construction. As a result, they also received reduced weight in the Board's analysis. The appellant's comparables numbered five, six, and seven received little weight in the Board's analysis, because the appellant did not provide enough information to indicate whether they were actually comparable to the subject property. The Board finds the comparables numbered one and four by the appellant were the most similar to the subject in size, and they were also very similar in age, style, and exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$17.05 and \$18.21 per square foot of living area. The subject's improvement assessment of \$20.83 per square foot of living area is above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
