

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Oulvey
DOCKET NO.: 07-22065.001-R-1
PARCEL NO.: 09-25-310-004-0000

The parties of record before the Property Tax Appeal Board are David Oulvey, the appellant, by attorney Julie Realmuto of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 10,240
IMPR.: \$ 59,343
TOTAL: \$ 69,583**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 2,325 square feet of living area. The dwelling is 82 years old. Features of the home include a partial, unfinished basement and a fireplace.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on five comparable properties. On the grid analysis, four are described as two-story masonry dwellings that range in age from 78 to 83 years old. Each of the four comparables listed on the grid analysis have a basement; three have central air conditioning; and three have a fireplace. The appellant did not include any information concerning garages for these comparables. One of the five comparables had no detailed description provided other than classification and neighborhood codes, size, and improvement assessment. The five comparable dwellings range in size from 2,494 to 2,844 square feet of living area. These properties have improvement assessments ranging from \$22.36 to \$23.21 per square foot of living area. The subject's improvement assessment is \$25.52 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that range in age from 68 to 86 years old. The dwellings range in size from 2,265 to 2,593 square feet of living area. Each comparable has a basement and a fireplace; three have a garage; and two have central air conditioning. These properties have improvement assessments ranging from \$25.33 to \$31.43 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds that the comparables submitted by the board of review were the most similar to the subject in exterior construction, and they were also very similar in age, size, and style. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$25.33 to \$31.43 per square foot of living area. The subject's improvement assessment of \$25.52 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
