

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John & Teresa Hansen  
DOCKET NO.: 07-22332.001-R-1  
PARCEL NO.: 05-18-217-005-0000

The parties of record before the Property Tax Appeal Board are John & Teresa Hansen, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 19,080  
**IMPR.:** \$ 69,384  
**TOTAL:** \$ 88,464

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 7,950 square foot parcel improved with a 79-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,478 square feet of living area and located in New Trier Township, Cook County. Features of the residence include three and one-half bathrooms, central air-conditioning, two fireplaces, a partial-finished basement and a two-car detached garage.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of the inequity claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellants' documents, the four suggested comparables consist of two-story, single-family dwellings of masonry, stucco or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,570 to 2,786 square feet of living area and range in age from 77 to 93 years old. The

comparables contain two and one-half or three full bathrooms, a finished or unfinished basement, one or two fireplaces and a two-car garage. Three comparables have central air-conditioning. The improvement assessments range from \$17.06 to \$22.51 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$88,464. The subject's improvement assessment is \$69,384 or \$28.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,309 to 2,558 square feet of living area and range in age from 72 to 80 years old. The comparables contain two and one-half or three and one-half bathrooms, a full-finished or unfinished basement, a fireplace and a one-car or two-car garage. One comparable has central air-conditioning. The improvement assessments range from \$28.21 to \$31.08 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

The Board finds the appellants' comparable four and the board of review's comparables one, two and three to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age, exterior construction and location and have improvement assessments ranging from \$22.51 to \$29.40 per square foot of living area. The subject's per square foot improvement assessment of \$28.00 falls within the range established by these properties. The Board finds the four remaining comparables less similar to the subject in improvement size and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
