

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alexander & Dina Obolsky  
DOCKET NO.: 07-22339.001-R-1  
PARCEL NO.: 05-06-402-016-0000

The parties of record before the Property Tax Appeal Board are Alexander & Dina Obolsky, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 25,296  
**IMPR.:** \$ 89,637  
**TOTAL:** \$ 114,933

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 10,200 square foot parcel improved with an 85-year-old, two-story, single-family dwelling of frame construction containing 2,608 square feet of living area and located in New Trier Township, Cook County. Features of the residence include three full bathrooms, a full-unfinished basement, central air-conditioning, a fireplace and a two-car detached garage.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of the inequity claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellants' documents, the four suggested comparables consist of two-story, single-family dwellings of frame, stucco or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,408 to 2,889 square feet of living area and range in age from 71 to 95 years old. The

comparables contain from two to three and one-half bathrooms and a finished or unfinished basement. Two comparables have central air-conditioning, three comparables contain one or two fireplaces and three comparables have a two-car garage. The improvement assessments range from \$27.26 to \$33.07 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$128,555. The subject's improvement assessment is \$103,259 or \$39.59 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 2,220 to 3,938 square feet of living area and range in age from 87 to 129 years old. The comparables contain from two to five full bathrooms, a finished or unfinished basement, from one to three fireplaces and a one-car or two-car garage. Three comparables have central air-conditioning. The improvement assessments range from \$32.28 to \$49.26 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have overcome this burden.

The Board finds the appellants' comparables two, three and four and the board of review's comparables one and two to be the most similar properties to the subject in the record. These five properties are similar to the subject in improvement size, amenities, age, design and location and have improvement assessments ranging from \$31.21 to \$34.37 per square foot of living area. The subject's per square foot improvement assessment of \$39.59 falls above the range established by these properties. The Board finds the appellants' remaining comparable inferior to the subject in amenities and accorded less weight. The board's two remaining comparables are accorded less weight because they differ from the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
