

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Philip & Susan Brilliant
DOCKET NO.: 07-22355.001-R-1
PARCEL NO.: 04-01-400-017-0000

The parties of record before the Property Tax Appeal Board are Philip & Susan Brilliant, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 24,122
IMPR.: \$ 120,878
TOTAL: \$ 145,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 14,025 square foot parcel improved with a seven-year-old, two-story, single-family dwelling of masonry construction containing 3,619 square feet of living area and located in New Trier Township, Cook County. Features of the residence include three and one-half bathrooms, a full-finished basement, central air-conditioning, a fireplace and a two-car attached garage.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of the inequity claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellants also submitted Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellants' documents, the four suggested comparables consist of two-story, single-family dwellings of stucco or frame and masonry construction with the

same neighborhood code as the subject. The improvements range in size from 3,098 to 3,672 square feet of living area and range in age from 13 to 62 years old. The comparables contain from two and one-half to four and one-half bathrooms, a finished or unfinished basement, central air-conditioning, multiple fireplaces and a multi-car attached garage. The improvement assessments range from \$26.85 to \$33.50 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$151,618. The subject's improvement assessment is \$127,496 or \$35.23 per square foot of living area. In addition, the board of review provided a copy of the subject's property characteristic printout as well as copies of documentation from the board of review level complaint file. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have overcome this burden.

The Board finds the appellant's four comparables to be similar to the subject in improvement size, design, amenities and location and have improvement assessments ranging from \$26.85 to \$33.50 per square foot of living area. The subject's per square foot improvement assessment of \$35.23 falls above the range established by these properties. The Board further finds the board of review's evidence fails to address the appellant's inequity argument. After considering adjustments and the differences in the appellant's comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
