

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alvin R. Paden
DOCKET NO.: 07-22396.001-R-1
PARCEL NO.: 10-25-224-023-0000

The parties of record before the Property Tax Appeal Board are Alvin R. Paden, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,360
IMPR.: \$ 42,640
TOTAL: \$ 51,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 5,500 square foot parcel improved with a 49-year-old, two-story, six unit, multi-family dwelling of masonry construction containing 5,502 square feet of living area and located in Evanston Township, Cook County. Features of the building include six full bathrooms and a full-finished basement apartment.

The appellant submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story or three-story, six unit, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 4,620 to 8,642

square feet of living area and range in age from 48 to 49 years old. The comparables contain six full bathrooms and a finished or unfinished basement. The improvement assessments range from \$3.74 to \$7.75 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The appellant also requested a reduction in the subject's land assessment, however, failed to provide an analysis in support of this claim. The appellant failed to provide the comparables' land sizes and therefore, the Board cannot conduct a comparative analysis.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$73,911. The subject's improvement assessment is \$65,551 or \$11.91 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with two-story, three and five unit, 47 and 52-year-old, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements contain 4,388 and 4,798 square feet of living area. The comparables contain four and one-half or five full bathrooms and a full-finished basement apartment. The improvement assessments are \$13.25 and \$15.79 per square foot of living area, respectively. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds a reduction is warranted.

The Board finds the appellant's comparables one, three and five to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age, exterior construction and location and have improvement assessments ranging from \$3.74 to \$7.75 per square foot of living area. The subject's per square foot improvement assessment of \$11.91 falls above the range established by these properties. The Board finds the four remaining comparables less similar to the subject in improvement size and/or number of units and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot

improvement assessment is not supported by the most similar properties contained in the record.

The appellant failed to provide an analysis supporting a reduction in the subject's land assessment. As a result, the Board sustains the land assessment assigned to the subject property.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
