

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anne Frankel
DOCKET NO.: 07-22564.001-R-1
PARCEL NO.: 14-29-401-028-0000

The parties of record before the Property Tax Appeal Board are Anne Frankel, the appellant, by attorney Thomas J. Thorson in Oak Park, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 17,609
IMPR.: \$ 46,800
TOTAL: \$ 64,409

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,125 square foot parcel improved with a 23-year-old, two-story, mixed-use building of masonry construction containing 3,250 square feet of building area and located in Lake View Township, Cook County. Features of the building include one and one-half bathroom, a partial-unfinished basement, central air-conditioning and a three-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of multi-story, mixed-use buildings of frame, masonry or frame and masonry construction located on the same street and within two blocks of the subject. The comparables contain from one to four and one-half bathrooms and an unfinished basement. One comparable has central air-conditioning. The improvements range in size from 2,907 to 5,478

square feet of building area and range in age from 115 to 118 years old. The improvement assessments range from \$7.30 to \$9.60 per square foot of building area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$64,409. The subject's improvement assessment is \$46,800 or \$14.40 per square foot of building area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, mixed-use buildings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,860 to 3,652 square feet of building area and range in age from 100 to 125 years old. The comparables contain from three and one-half to five and one-half bathrooms and a partial-unfinished basement. One comparable has central air-conditioning and one comparable has a two-car garage. The improvement assessments range from \$14.56 to \$16.77 per square foot of building area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables one, two and three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, amenities and location and have improvement assessments ranging from \$16.27 to \$16.77 per square foot of building area. The subject's per square foot improvement assessment of \$14.40 falls below the range established by these properties. The Board finds the five remaining comparables less similar to the subject in improvement size and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
