

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tan Duong
DOCKET NO.: 07-22575.001-R-1
PARCEL NO.: 14-08-204-003-0000

The parties of record before the Property Tax Appeal Board are Tan Duong, the appellant, by attorney Thomas J. Thorson in Oak Park, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 11,753
IMPR.: \$ 44,712
TOTAL: \$ 56,465

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 68-year old, 4,264 square foot, two-story, masonry, mixed-use building with a two-car garage. The subject property is situated on a 3,750 square foot lot.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted information on four suggested comparable properties located on the subject's street. The comparables are two-story, masonry, mixed-use buildings. The comparables range in age from 35 to 97 years old and range in size from 3,185 to 4,160 square feet of building area. The comparables have improvement assessments that range from \$5.28 to \$8.17 per square foot of building area. The subject's improvement assessment is \$10.48 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

In support of the subject's assessment, the board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$56,465 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties located in the subject's subarea with one suggested comparable located within one-quarter mile from the subject property. The suggested comparables consist of two-story, masonry, mixed-use buildings that range in age from 76 to 95 years old and range in size from 3,408 to 4,198 square feet. These properties have improvement assessments that range from \$10.92 to \$12.30 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted eight suggested comparable properties for the Board's consideration. The Board finds that comparables #2 and #3 submitted by the board of review and comparable #1 submitted by the appellant to be the most similar to the subject in size, exterior construction and design. These comparables had improvement assessments that ranged from \$5.28 to \$12.30 per square foot of building area. The subject's improvement assessment of \$10.49 per square foot of building area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.
