

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Helena Ruotsalainen  
DOCKET NO.: 07-22586.001-R-1  
PARCEL NO.: 05-21-311-010-0000

The parties of record before the Property Tax Appeal Board are Helena Ruotsalainen, the appellant, by attorney Michael Griffin of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 43,658  
IMPR.:    \$ 151,635  
TOTAL:    \$ 195,293**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of stucco construction containing 4,966 square feet of living area. The dwelling is 82 years old. Features of the home include a full, finished basement, central air conditioning, a fireplace, and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or stucco dwellings that range in age from 83 to 102 years old. The comparable dwellings range in size from 3,662 to 4,439 square feet of living area. Three comparables have central air conditioning, and three have a fireplace. Each dwelling has a garage, either two-car or two and one-half car. The appellant did not include any data concerning basements for the properties. The comparables have improvement assessments ranging from \$24.14 to \$28.87 per square foot of living area. The subject's improvement assessment is \$30.53 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of two-story stucco dwellings that range in age from 80 to 89 years old. The dwellings range in size from 3,222 to 4,500 square feet of living area. Three comparables have finished basements, either full or partial, and one has a full, unfinished basement. Each dwelling has one or two fireplaces and a garage, either one-car or two-car. Three comparables have central air conditioning. These properties have improvement assessments ranging from \$30.64 to \$36.23 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables numbered one, three, and four differed from the subject in exterior construction, and comparable numbered two was much older. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in size, style, exterior construction, most features, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$30.64 to \$36.23 per square foot of living area. The subject's improvement assessment of \$30.53 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
