

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mohammad Yaqoob  
DOCKET NO.: 07-22607.001-R-1  
PARCEL NO.: 14-06-102-004-0000

The parties of record before the Property Tax Appeal Board are Mohammad Yaqoob, the appellant, by attorney Michael Griffin of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 8,749**  
**IMPR.:    \$ 44,998**  
**TOTAL:    \$ 53,747**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a three-story, multi-family, dwelling of masonry construction containing 7,725 square feet of living area. The dwelling is 75 years old. Features of the home include a partial, unfinished basement, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two or three-story, multi-family, masonry dwellings that range in age from 93 to 105 years old. Based on their parcel index numbers and their neighborhood codes, the comparables are not located near the subject property. The comparable dwellings range in size from 4,350 to 18,320 square feet of living area. One of the comparables has central air conditioning, and another one has a two-car garage. The appellant did not include any data concerning basements for the comparables. The comparables have improvement assessments ranging from \$2.34 to \$3.03 per square foot of living area. The subject's improvement assessment is \$5.82 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of three-story, multi-family, masonry dwellings that range in age from 69 to 77 years old. Based on their parcel index numbers and street addresses, the comparables are located either in the same block as the subject, or just one block away. The dwellings range in size from 4,500 to 6,957 square feet of living area. Two comparables have garages, either one and one-half car or two-car. These properties have improvement assessments ranging from \$6.51 to \$8.74 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the appellant were much older than the subject, and they also differed in location. In addition, the comparables numbered one, three, and four by the appellant differed in style; and comparable four was considerably larger. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board further finds that the comparables submitted by the board of review, despite varying in size from the subject, were most similar in age, location, style, and exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$6.51 to \$8.74 per square foot of living area. The subject's improvement assessment of \$5.82 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
