

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Constance Coolidge
DOCKET NO.: 07-22675.001-R-1 through 07-22675.002-R-1
PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are Constance Coolidge, the appellant, by attorney Timothy C. Jacobs of Gary H. Smith PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO	PARCEL NUMBER	LAND	IMPRVMT	TOTAL
07-22675.001-R-1	05-28-220-005-0000	26,600	0	\$26,600
07-22675.002-R-1	05-28-220-006-0000	61,249	226,512	\$287,761

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of two parcels, one of which is improved with a two-story dwelling of stucco construction containing 5,808 square feet of living area. The dwelling is 94 years old. Features of the home include a full, unfinished basement, central air conditioning, a fireplace, and a two-car garage. The improvement assessment is the subject of this appeal.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on fifteen comparable properties described as two-story stucco, frame, masonry, or frame and masonry dwellings that range in age from 65 to 117 years old. The appellant's comparables all have the same neighborhood code as the subject. The comparable dwellings range in size from 5,086 to 6,689 square feet of living area. Each comparable has from one to four fireplaces; six comparables have central air conditioning; and eleven have garages. The appellant did not provide information on the comparables' foundations. The comparables have improvement assessments ranging from \$25.05 to \$37.96 per square foot of living area. The subject's improvement assessment is \$39.00 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story stucco or masonry dwellings that range in age from three to ninety-one years old. The comparables all have the same neighborhood code as the subject. The dwellings range in size from 5,413 to 6,102 square feet of living area. Each comparable has a full basement, three of which are finished; central air conditioning; and one to three fireplaces. Three comparables have garages. These properties have improvement assessments ranging from \$39.05 to \$56.87 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of sixteen equity comparables. The Board finds the appellant's comparables numbered three, seven, and nine and the comparable numbered one by the board of review were most similar to the subject in exterior construction. They were also very similar in style and age and generally similar in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$36.19 to \$39.05 per square foot of living area. The subject's improvement assessment of \$39.00 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
