

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Cissy Greenspan
DOCKET NO.: 07-22688.001-R-1
PARCEL NO.: 05-07-408-024-0000

The parties of record before the Property Tax Appeal Board are Cissy Greenspan, the appellant, by attorney Timothy C. Jacobs of Gary H. Smith PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 27,511
IMPR.: \$ 133,129
TOTAL: \$ 160,640**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 4,766 square feet of living area. The dwelling is 10 years old. Features of the home include a full finished basement, central air conditioning, four fireplaces, and a three-car attached garage. The dwelling is located in Glencoe, New Trier Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of the overvaluation argument, the appellant submitted an appraisal report in which a market value of \$1,600,000 was estimated for the subject property as of January 1, 2007. The appraiser developed the sales comparison approach in order to estimate the market value of the subject property. The appraiser estimated a market value of \$1,600,000. Under the sales comparison approach, the appraiser considered three comparable properties that sold from November 2006 to April 2007 for prices that ranged from \$1,465,000 to \$1,690,000. The comparable properties are improved with two-story masonry dwellings that range in age from seven to twelve years old and range in size from 4,450 to 4,650 square feet of living area. After identifying differences between the comparable properties and the subject, the appraiser made adjustments to the sale prices. As a result, the adjusted sale prices of the comparable properties

ranged from \$1,489,500 to \$1,705,500. In the brief, the appellant's counsel requested that the three-year median level of assessments on class 2 property of 10.04% in Cook County be applied to the appraiser's finding of market value and that the subject's total assessment be reduced to \$160,000.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$190,219 was disclosed. The subject's assessment reflects a market value of \$1,894,612 or \$397.53 per square foot of living area,¹ land included, using the 2007 three-year median level of assessments for Cook County Real Property Assessment Classification Ordinance Class 2 property of 10.04% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code 1910.59(c)(2)).

The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from seven to seventeen years old. The comparables have the same assigned neighborhood and classification codes as the subject. The dwellings range in size from 3,806 to 4,728 square feet, and they have improvement assessments ranging from \$15.35 to \$37.74 per square foot of living area. As part of its evidence, the board of review also disclosed that comparable three sold in April 2004 for \$658,750 or \$173.08 per square foot of living area, land included. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Board finds it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code 1910.65(c)). After an analysis of the evidence in the record, the Board finds a reduction in the subject's assessment is warranted.

The Board finds the appellant's appraisal report is the best evidence of the subject's market value as of the January 1, 2007 assessment date. The appraiser estimated a market value of \$1,600,000 for the subject property as of January 1, 2007. The subject's assessment reflects a market value of \$1,894,612 and is in excess of the market value estimate contained in the appraisal report. The board of review submitted four equity comparables

¹ This calculation was based on the subject having 4,766 square feet of living area.

but did not sufficiently refute the overvaluation argument. Although the board of review provided a sale price for one of its equity comparables, this sale occurred in April 2004. The comparable sales utilized in the appraisal sold from November 2006 to April 2007, which was more proximate in time to the assessment date at issue. Based on this record, the Board finds the subject has a market value of \$1,600,000 as of January 1, 2007, and the 2007 three-year median level of assessments for Cook County Real Property Assessment Classification Ordinance Class 2 property of 10.04% as determined by the Illinois Department of Revenue shall apply. (86 Ill.Admin.Code 1910.59(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
