

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Glynn
DOCKET NO.: 07-22761.001-R-1
PARCEL NO.: 05-28-424-002-0000

The parties of record before the Property Tax Appeal Board are John Glynn, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 21,384
IMPR.: \$ 47,216
TOTAL: \$ 68,600**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of stucco construction containing 1,810 square feet of living area. The dwelling is 79 years old, and it has a full, unfinished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or stucco dwellings that range in age from 92 to 135 years old. The comparable dwellings range in size from 1,674 to 1,979 square feet of living area. Each comparable has a fireplace and a garage, and two dwellings have central air conditioning. However, the appellant did not provide any information on the comparables' foundations. The comparables have improvement assessments ranging from \$11.65 to \$23.76 per square foot of living area. The subject's improvement assessment is \$26.09 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of two-story stucco dwellings that range in age from 80 to 84 years old. The dwellings range in size from 1,824 to 2,080 square feet of living area. Two comparables have full, finished basements, and two have unfinished basements, either full or partial. Each comparable has a fireplace and a garage, and one dwelling has central air conditioning. These properties have improvement assessments ranging from \$26.45 to \$30.28 per square foot of living area. As part of its evidence, the board of review disclosed that the subject sold in April 2005 for \$686,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables numbered one, two, and four differed from the subject in exterior construction and received reduced weight in the Board's analysis. The appellant's comparable numbered three was somewhat older than the subject and also received reduced weight. The Board finds the comparable numbered three by the board of review was the most similar to the subject in size. It was also very similar in age, style, and exterior construction. The comparables numbered one, three, and four by the board of review were also very similar to the subject in age, exterior construction, and style. They were also generally similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$26.45 to \$30.28 per square foot of living area. The subject's improvement assessment of \$26.09 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
