

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nikolaos and Antonia Pappas  
DOCKET NO.: 07-22834.001-R-1  
PARCEL NO.: 28-31-105-030-0000

The parties of record before the Property Tax Appeal Board are Nikolaos and Antonia Pappas, the appellants, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 6,727**  
**IMPR.:    \$ 24,412**  
**TOTAL:    \$ 31,139**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story multi-family building of frame and masonry construction containing 5,293 square feet of building area. The building is 30 years old. Features of the building include six apartment units and a full basement finished for an apartment.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on three comparable properties described as two or three-story masonry or frame and masonry multi-family buildings that range in age from 30 to 37 years old. The comparables have the same neighborhood and classification codes as the subject. The comparables range in size from 5,292 to 5,670 square feet of building area, and each has six apartment units. The comparables have improvement assessments ranging from \$5.59 to \$6.84 per square foot of building area. The subject's improvement assessment is \$4.61 per square foot of building area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of two-story frame and masonry multi-family buildings that range in age from 30 to 35 years old. The comparables all have the same neighborhood and classification codes as the subject. The comparables contain either 4,928 or 5,293 square feet of building area, and each has six apartment units. These properties have improvement assessments ranging from \$4.61 to \$8.00 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The Board finds the appellants' comparables numbered one and two and the comparables numbered one and four by the board of review were identical to the subject in size and exterior construction. They were also very similar in age and design. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$4.61 to \$8.00 per square foot of building area. The subject's improvement assessment of \$4.61 per square foot of building area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
