

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kathleen Knorr  
DOCKET NO.: 07-22858.001-R-1  
PARCEL NO.: 14-17-314-024-0000

The parties of record before the Property Tax Appeal Board are Kathleen Knorr, the appellant, by attorney Christopher G. Walsh Jr. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 15,882  
IMPR.: \$ 55,430  
TOTAL: \$ 71,312**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story, multi-family dwelling of masonry construction containing 2,256 square feet of living area. The dwelling is 99 years old. Features of the dwelling include two apartment units, a partial, finished basement and a two-car garage. The subject property sold for \$558,500 in May 2003.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or masonry dwellings that range in age from 90 to 116 years old. Based on their parcel index numbers, one of the appellant's comparables is located on the same tax block as the subject, and the other three are located between one and five blocks from the subject property. The comparable dwellings range in size from 2,208 to 2,360 square feet of living area. Each comparable has two apartment units and a full, unfinished basement. Two dwellings have two-car garages. The comparables have improvement assessments ranging from \$18.05 to \$20.54 per square foot of living area. The subject's improvement assessment is \$24.57 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 94 to 110 years old. Two of the comparables are located on the same block as the subject, and the other two are located one-quarter mile from the subject. The dwellings range in size from 2,152 to 2,470 square feet of living area. Each comparable has two apartment units, a full, unfinished basement, and a garage, either one-car or two-car. These properties have improvement assessments ranging from \$24.40 to \$27.77 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. All of the comparables submitted by both parties were very similar in location, building use, age, style, size, and foundation. The appellant's comparable numbered three differed from the subject in exterior construction and received reduced weight in the Board's analysis. The Board finds the comparables numbered one, two, and four by the appellant and the comparables submitted by the board of review were most similar to the subject in exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$18.05 to \$27.77 per square foot of living area. The subject's improvement assessment of \$24.57 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
