

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Shamim Asif
DOCKET NO.: 07-22903.001-R-1
PARCEL NO.: 14-06-220-064-0000

The parties of record before the Property Tax Appeal Board are Shamim Asif, the appellant(s), by attorney James A. Di Christofano, of Law Offices of James A. Di Christofano in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,504
IMPR.: \$ 20,381
TOTAL: \$ 24,885

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story townhouse of masonry construction containing 1,280 square feet of living area. The dwelling is 45 years old, and it has a full, unfinished basement and central air conditioning.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties. On the grid analysis, four of the seven are described as two-story masonry dwellings that range from 38 to 49 years old. Each of the four comparables listed on the grid analysis has a basement, and three have central air conditioning. However, the appellant did not include any information concerning garages for these properties. Three comparables had no detailed description provided other than classification and neighborhood codes, size, and improvement assessment. The seven comparable dwellings are townhouses that range in size from 1,280 to 1,516 square feet of living area. These properties have improvement assessments ranging from \$10.71 to \$11.45 per square foot of living area. The subject's improvement assessment is \$15.92 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties that are located on the same block as the subject. Each dwelling is a forty-five year old, two-story masonry townhouse. Each contains 1,280 square feet of living area with a full, unfinished basement and central air conditioning, and each has an improvement assessment of \$15.92 per square foot of living area. As part of its evidence, the board of review disclosed that the subject sold in September 2004 for \$228,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of ten equity comparables. The appellant's comparables numbered five, six, and seven received little weight in the Board's analysis, because the appellant did not provide enough information to indicate whether they were actually comparable to the subject property. The appellant's comparables numbered one through four were larger than the subject and received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were nearly identical to the subject in all respects. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. Each of these comparables had an improvement assessment of \$15.92 per square foot of living area, which is identical to the subject's improvement assessment. Consequently, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
