

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 340 Bennett Assoc.
DOCKET NO.: 07-22948.001-I-1
PARCEL NO.: 08-21-202-014-0000

The parties of record before the Property Tax Appeal Board are 340 Bennett Assoc., the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,420
IMPR: \$82,800
TOTAL: \$104,220

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 14,000 square foot parcel of land improved with a 32-year old, one-story, masonry constructed industrial dwelling containing 5,000 square feet of building area. The appellant argued unequal treatment in the assessment process.

In support of this equity argument, the appellant submitted assessment data for seven properties within approximately one mile of the subject. These properties are described as industrial dwellings. The properties range in age from 34 to 40 years and in size from 4,467 to 5,431 square feet of building area. The properties have improvement assessments that range from \$11.14 to \$16.56 per square foot of building area. The subject's improvement assessment is \$23.80 per square foot of living area. In addition, the appellant submitted sales data for the subject which sold in 1999 for \$220,000 or \$44.00 per square foot, including land. The appellant also submitted sales data for comparable #1, #3, #4, #6 and #7 which sold from 1990 to 2006 for between \$175,000 to \$455,000 or from \$35.00 to \$91.00 per square foot of building area, including land. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$140,399 for the tax year 2007. The subject's assessment reflects a market value of \$402,633 or \$80.53 per square foot using the Cook County Ordinance Level of Assessment for Class 5b, industrial property of 36%.

In support of the subject's market value, raw sales data was submitted for seven industrial warehouse properties. The data from the CoStar Comps service sheets reflect that the research was licensed to the assessor's office, but filed to indicate that there was any verification of the information or sources of data. The properties sold from August 2002 to August 2008, in an unadjusted range from \$307,500 to \$475,000 or from \$61.50 and \$95.00 per square foot of building area, including land. The properties contained buildings that contain 5,000 square feet and range in age from 25 to 38 years. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The Board accorded diminished weight to the properties submitted by the board of review as the evidence provided unconfirmed, raw data on sales.

The Board finds the appellant's comparables #1, #4, #5, and #7 are most similar to the subject in size, age, and location. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$11.14 to \$16.56 per square foot of living area. The subject's improvement assessment of \$23.79 per square foot of building area is above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
