

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Simms
DOCKET NO.: 07-22971.001-R-1
PARCEL NO.: 09-26-204-069-0000

The parties of record before the Property Tax Appeal Board are John Simms, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 19,152
IMPR.: \$145,085
TOTAL: \$164,237

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 17,100 square foot parcel of land improved with an eight-year old, two-story, masonry, single-family dwelling. The improvement contains 5,522 square feet of living area, four and one-half baths. Additional features include air conditioning, three fireplaces, a full unfinished basement and a three-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of six properties suggested as comparable. The properties are located within 1.67 miles of the subject. The properties are improved with two-story, frame or masonry, single-family dwellings. The properties range in age from three to nine years; contain from 5,281 to 5,958 square feet of living area with three and one-half to six full and two half baths. The improvement assessments range from \$16.69 to \$21.19 per square foot of living area. The subject's improvement assessment is \$26.27 per square foot of living area. The

properties also contain: air conditioning, two to four fireplaces, full or partial, finished or unfinished basements, and two to three-car garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$145,085 or \$26.27 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located on the subject's block. The properties are improved with two-story, stucco, or masonry, single-family dwellings. The properties range: in age from 7 to 78 years; in size from 5,132 to 7,242 square feet of living area and have three and one-half to four full and three-half baths. The properties also include partial or full, finished or unfinished basements, air conditioning, two to six fireplaces, and two to three car garage areas. The properties have improvement assessments ranging from \$26.27 to \$28.32 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In addition, the board's analysis indicated that the subject as well properties #2 #3 and #4 were accorded a deluxe condition ranking by the assessor's office while property #1 was accorded an average condition without further explanation. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of ten properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #4 #5 and #6 and the board of review's comparables #1 and #4 most similar to the subject in improvement size, design, and age. These comparables ranged in improvement assessments from \$19.44 to \$27.09 per square foot. The subject's improvement assessment of \$26.27 per square foot of living area is within the range established by these comparables. Further, the Board accorded diminished weight to the remaining properties due to a disparity in improvement size, and age. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that

the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
