

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Frank Peard
DOCKET NO.: 07-23068.001-R-1
PARCEL NO.: 18-07-112-022-0000

The parties of record before the Property Tax Appeal Board are Frank Peard, the appellant(s), by attorney Joseph G. Kusper, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 22,701
IMPR.: \$ 87,091
TOTAL: \$ 109,792

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 14,935 square foot parcel improved with a 25-year-old, two-story style single-family dwelling of masonry construction. Containing 4,315 square feet of living area, the subject features three and one-half baths, a full unfinished basement, central air conditioning, two fireplaces and a two and one-half car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of masonry, stucco or frame and masonry construction ranging from seven to forty-nine years old. The comparables range in size from 4,083 to 5,752

square feet of living area with amenities such as three or four full baths, half baths, central air conditioning, one or three fireplaces, and two or three car garages. The comparables have improvement assessments ranging from \$13.74 to \$16.93 per square foot of living area. A copy of the subject's 2007 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$87,091, or \$20.18 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the same assessment neighborhood as the subject. The comparables consist of two-story style single-family dwellings of masonry construction ranging from 20 to 58 years old. These properties range in size from 3,903 to 4,162 square feet of living area and have amenities such as from two or three full baths, full or partial basements, central air conditioning, one or two fireplaces and multi-car garages; three also have half baths. The comparables have improvement assessments ranging from \$20.28 to \$21.17 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board finds that two of the improvements are superior in age; four are inferior in age; two are superior in size; and two have superior amenities when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$20.18 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject

dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.
