

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronald M. Gonsky  
DOCKET NO.: 07-23111.001-R-1  
PARCEL NO.: 14-29-308-041-0000

The parties of record before the Property Tax Appeal Board are Ronald M. Gonsky, the appellant, by attorney Dennis M. Nolan, of Dennis M. Nolan, P.C. in Bartlett; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 29,674  
**IMPR.:** \$ 203,372  
**TOTAL:** \$ 233,046

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 5,952 square foot parcel improved with a 16-year-old, three-story, deluxe condition, single-family dwelling of masonry construction containing 5,804 square feet of living area. Features of the residence include three and one-half bathrooms, central air-conditioning, three fireplaces and a three-car attached garage. The subject is built with crawl space and located in Lake View Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this argument, the appellant submitted two pages of Property Search Results from the Cook County Assessor's Office. The Property Search Results highlighted numerous properties suggested as comparable to the subject. The address, property index number, classification code, neighborhood code, city and total assessed value for each property was provided. Based on the evidence submitted, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$233,046. The subject's improvement assessment is \$203,372 or \$35.04 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,080 to 5,699 square feet of living area and range in age from four to fifteen years old. The comparables contain from three and one-half to six and one-half bathrooms, central air-conditioning and two or three fireplaces. Two comparables have a full-finished basement and three comparables have a two-car garage. Three comparables are average condition, whereas, one comparable enjoys deluxe condition. The improvement assessments range from \$35.07 to \$65.12 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables one, two and three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age, design and location and have improvement assessments ranging from \$35.07 to \$38.19 per square foot of living area. The subject's per square foot improvement assessment of \$35.04 falls below the range established by these properties. The Board finds the appellant's suggested comparables do not provide any support for a reduction in the subject's assessment. The only information provided with regard to the appellant's comparables was the address, property index number, classification code, neighborhood code, city and total assessed value for each property. Without adequate descriptions of the properties, the Board finds it is impossible to evaluate their comparability to the subject.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
