

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patel Bindisha  
DOCKET NO.: 07-23172.001-R-1  
PARCEL NO.: 18-18-100-024-0000

The parties of record before the Property Tax Appeal Board are Patel Bindisha, the appellant(s), by attorney Arnold G. Siegel, of Siegel & Callahan, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$15,200  
IMPR.: \$51,163  
TOTAL: \$66,363**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 19,000 square foot parcel of land improved with a seven year old, two-story, frame and masonry, single-family dwelling containing 4,016 square feet of living area, two and one-half baths, a full unfinished basement, one fireplace, and a three-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of seven properties suggested as comparable and located within ten blocks of the subject property. The properties are described as two-story, masonry or frame and masonry, single-family dwellings with between two and two-half and three and two-half baths, full unfinished basements for four of the properties, air conditioning for six of the properties, and one or two fireplaces. The properties range: in age from 10 to 32 years; in size from 3,811 to 4,393 square feet of living area; and in improvement assessments from \$11.05 to \$13.53 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$92,800 or \$23.11 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and with three of the properties located within one-quarter mile of the subject property. The properties are described as two-story, frame and masonry or masonry, single-family dwellings with between two and one-half and three and one-half baths, a full finished or unfinished basement, and one or two fireplaces. The properties range: in age from one to twenty-nine years; in size from 4,084 to 4,690 square feet of living area; and in improvement assessments from \$12.74 to \$15.53 per square foot of living area. Property #3 is partially assessed at \$1.45 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of eleven properties suggested as comparable to the subject. The PTAB finds the board of review's comparable #2 and the appellant's comparables #1 and #3 most similar to the subject in size, design, construction, and location. The properties are described as two-story, frame and masonry, single-family dwellings with between two and two-half and three and one-half baths, one or two fireplaces, full finished or unfinished basements, and air conditioning. The properties range: in age from 12 to 32 years; in size from 4,084 to 4,183 square feet of living area; and in improvement assessments from \$12.17 to \$12.74 per square foot of living area. In comparison, the subject's improvement assessment of \$23.11 per square foot of living area is above the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported and a reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
