

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alan Herbach
DOCKET NO.: 07-23177.001-R-1
PARCEL NO.: 10-10-416-018-0000

The parties of record before the Property Tax Appeal Board are Alan Herbach, the appellant, by attorney Mitchell L. Klein of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,324
IMPR.: \$38,289
TOTAL: \$48,613

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 1.5-story dwelling of frame construction containing 1,970 square feet of living area. The dwelling is 67 years old. Features of the home include a partial unfinished basement, central air conditioning and a 1.5-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as 1.5-1.9-story frame and masonry dwellings that range in age from 50 to 53 years old. The comparable dwellings range in size from 2,684 to 2,940 square feet of living area. Each comparable has central air conditioning and a 2.5-car garage. The appellant did not include any data concerning basement area for the comparables. The comparables have improvement assessments ranging from \$16.51 to \$17.63 per square foot of living area. The subject's improvement assessment is \$19.44 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of one-story or 1.5-story masonry or frame and masonry dwellings that range in age from 50 to 53 years old. The dwellings range in size from 2,016 to 2,183 square feet of living area. Three comparables have a partial basement of which one basement is finished with a recreation room. One comparable has a full unfinished basement. Three comparables have central air conditioning. Three comparables have a fireplace and a 2-car garage. These properties have improvement assessments ranging from \$9.91 to \$20.46 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant argued the board of review's comparables #2, #3 and #4 are one-story masonry homes compared to the subject's 1.5-1.9-story frame dwelling. The appellant's comparables are all 1.5-1.9-story dwellings.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #2, #3 and #4 submitted by the board of review were most similar to the subject in location, size and features despite their one-story design. While the appellant's comparables were all like the subject in design, they were all substantially larger than the subject in dwelling size. Due to their similarities to the subject, the board of review's comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$19.31 to \$20.46 per square foot of living area. The subject's improvement assessment of \$19.44 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
