

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Donald Gibson
DOCKET NO.: 07-23268.001-R-1
PARCEL NO.: 05-29-426-001-0000

The parties of record before the Property Tax Appeal Board are Donald Gibson, the appellant, by attorney Thomas M. Battista, of Law Offices of Thomas M. Battista in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 23,894
IMPR.: \$ 133,576
TOTAL: \$ 157,470

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with an eight-year old, two-story, masonry, single-family dwelling. It contains 4,002 square feet of living area and is situated on a 10,125 square foot site. Features include three full and one half-baths, four bedrooms, central air conditioning, two fireplaces, a full, unfinished basement, and an attached two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted limited descriptive and assessment data for three suggested comparables. The properties are improved with a frame or masonry, single-family dwelling. They range: in age from 1 to 57 years; in size from 3,937 to 4,588 square feet of living area and in improvement assessment from \$13.22 to \$28.02 per square foot of living area. The subject's improvement assessment is \$28.38 per square foot of living area. Amenities for the suggested comparable properties include three full and one half-bath or four full and one half-bath, and two or three

fireplaces. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's improvement assessment of \$113,576 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment data, as well as black and white photographs, relating to four suggested comparables located within the subject's neighborhood. The properties are improved with a two-story, masonry, single-family dwelling. They range: in age from 37 to 45 years; in size from 3,928 to 4,432 square feet of living area; and in improvement assessment from \$31.44 to \$33.68 per square foot of living area. Amenities for the properties include three full and one half-bath or four full and two half-baths, five bedrooms, a partial or full, finished or unfinished basement, central air conditioning, one to three fireplaces, and a two or three-car garage.

The board of review also noted the sale of comparable #4 in January 2005 for \$1,750,000, or \$442.25 per square foot, including land.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of seven comparable properties for the Board's consideration. The Board finds that comparable #1 submitted by the appellant as well as comparables #2 through #4 submitted by the board of review are most similar to the subject in location, design and size. They contain between 3,937 and 4,432 square feet of living area. In analysis, the Board accorded the most weight to these comparables. These comparables ranged in improvement assessment from \$28.02 to \$33.68 per square foot of living area. The subject's improvement assessment at \$28.38 per square foot is within the range established by these comparables.

After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical,

rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
