

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Gynn
DOCKET NO.: 07-23397.001-R-1 through 07-23397.002-R-1
PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are Thomas Gynn, the appellant, by attorney Michael Griffin of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO	PARCEL NUMBER	LAND	IMPRVMT	TOTAL
07-23397.001-R-1	05-35-307-011-0000	1,025	0	\$1,025
07-23397.002-R-1	05-35-307-031-0000	14,268	50,008	\$64,276

Subject only to the State multiplier as applicable.

ANALYSIS

The appellant's petition lists two parcels. One parcel does not have an improvement, and the assessment on this parcel is not in question. The other parcel has an improvement, which is the subject of this appeal. The subject property is improved with a two-story dwelling of frame and masonry construction containing 1,728 square feet of living area. The dwelling is 84 years old. Features of the home include a full, unfinished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or stucco dwellings that range in age from 83 to 94 years old. The comparable dwellings range in size from 1,784 to 2,134 square feet of living area. Two comparables have a fireplace, and three have a garage, either one-car or two and one-half car. The appellant did not include any data concerning basements for the properties. The comparables have improvement assessments ranging from \$20.26 to \$27.29 per square foot of living area. The subject's improvement assessment is \$28.94 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame and masonry dwellings that range in age from 69 to 87 years old. The dwellings range in size from 1,706 to 1,838 square feet of living area. Each comparable has a full, unfinished basement and a fireplace; two have central air conditioning; and three have a garage, either one-car or two-car. These properties have improvement assessments ranging from \$30.07 to \$31.67 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds that the comparables submitted by the appellant differed from the subject in exterior construction; the comparable numbered three was also much larger; and the comparables numbered two through four were also older than the subject. In addition, the appellant did not provide any information on the comparables' foundations. As a result, the appellant's comparables received reduced weight in the Board's analysis. The comparable numbered four by the board of review was newer than the subject and also received reduced weight. The Board finds the comparables numbered one through three by the board of review were most similar to the subject in age, exterior construction, size, and foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$30.07 to \$31.67 per square foot of living area. The subject's improvement assessment of \$28.94 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
