

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Willie
DOCKET NO.: 07-23555.001-R-1
PARCEL NO.: 05-21-129-019-0000

The parties of record before the Property Tax Appeal Board are Thomas Willie, the appellant, by attorney Eugene P. Griffin, of Eugene L. Griffin & Associates, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$54,604
IMPR: \$101,016
TOTAL: \$155,620

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 18,700 square foot parcel of land improved with a three-story, 4,920 square foot, stucco, single-family dwelling that was constructed in 1914. Features include 11 rooms, three and one-half baths, and a two car garage. The appellant, via counsel, argued that the fair market value of the subject was not accurately reflected in its assessed value.

In support of the market value argument, the appellant submitted an appraisal by Steven Spsychalski of Metropolitan Valuation Services, Inc. The report indicates Spsychalski is a State of Illinois certified residential real estate appraiser. The appraiser indicated the subject has an estimated market value of \$1,550,000 as of January 1, 2007. The appraisal report utilized the sales comparison approach to value to estimate the market value for the subject property. The appraisal finds the subject's highest and best use is its current use.

Under the sales comparison approach, the appraiser analyzed the sales of five single-family dwellings located within the subject's market. The properties contain from 4,031 to 5,440 square feet of building area. The comparables sold from January

2006 to July 2006 for prices that ranged from \$1,340,000 to \$1,675,000 or from \$304.61 to \$393.56 per square foot of building area, including land. The appraiser adjusted each of the comparables for pertinent factors. Based on the similarities and differences of the comparables when compared to the subject, the appraiser estimated a value for the subject under the sales comparison approach of \$1,550,000, or \$315.04 per square foot of building area, including land.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$225,376 was disclosed. The subject's final assessment reflects a fair market value of \$2,244,781 when applying the 2007 Cook County median level of assessment for Class 2 properties of 10.04%. In support of the subject's assessment, the board of review presented descriptions and assessment information regarding four suggested comparables located within the subject's neighborhood. The properties consist of single-family dwellings that range in size from 3,398 to 4,680 square feet of building area and have assessments that range from \$36.20 to \$51.00 per square feet of living area.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the PTAB concludes that the evidence indicates a reduction is warranted.

In determining the fair market value of the subject property, the PTAB finds the best evidence to be the appellant's appraisal. The appellant's appraiser utilized the sales comparison approach to value in determining the subject's market value. The PTAB finds this appraisal to be persuasive for the appraiser: has experience in appraising; personally inspected the subject property and reviewed the property's history; and used similar properties in the sales comparison approach while providing sufficient detail regarding each sale as well as adjustments that were necessary.

Therefore, the PTAB finds the subject had a market value of \$1,550,000 for the 2007 assessment year. Since the market value of this parcel has been established, the 2007 Cook County median level of assessment for Class 2 properties of 10.04% will apply. In applying this level of assessment to the subject, the total

Docket No: 07-23555.001-R-1

assessed value is \$155,620 while the subject's current total assessed value is above this amount. Therefore, the PTAB finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
