

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Arthur Pancoe  
DOCKET NO.: 07-23581.001-R-1  
PARCEL NO.: 05-08-303-004-0000

The parties of record before the Property Tax Appeal Board are Arthur Pancoe, the appellant(s), by attorney David R. Bass, of Thompson Coburn LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$95,120  
**IMPR:** \$213,689  
**TOTAL:** \$308,809

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 29,000 square foot parcel of land improved with a 43-year old, one-story, masonry, single-family dwelling containing 2,514 square feet of living area, three and one-half baths, air conditioning, three fireplaces, and a full, finished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of seven properties suggested as comparable and located within the subject's neighborhood code. The properties are described as one or one and one-half story, masonry, frame or masonry and frame, single-family dwellings. Features include between two and one-half and four and one-half baths, air conditioning for five properties, one or two fireplaces, and partial or full basements with one finished. The properties range: in age from 22 to 80 years; in size from 2,623 to 3,564 square feet of building area; and in improvement assessments from \$36.37 to \$91.83 per square

foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$213,689 or \$85.00 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood code. The properties are described as one-story, masonry, single-family dwellings. Features include between two and one-half and four and one-half baths, air conditioning, one or two fireplaces, and, for two properties, partial basements with one finished. The properties range: in age from 44 to 53 years; in size from 2,790 to 4,106 square feet of living area; and in improvement assessments from \$85.27 and \$92.00 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted aerial maps of the subject property and the appellant's and board of review's suggested comparables to show proximity to the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of 11 properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1 and #4 and the board of review's comparable #4 most similar to the subject in design, age, size, and construction. The properties are described as one-story, masonry, single-family dwellings. The properties range: in age from 51 to 53 years; in size from 2,790 to 3,478 square feet of living area; and in improvement assessments from \$36.37 to \$85.27 per square foot of living area. In comparison, the subject's improvement assessment of \$85.00 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
