

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marcie B. Weiss
DOCKET NO.: 07-23592.001-R-1
PARCEL NO.: 11-30-115-042-0000

The parties of record before the Property Tax Appeal Board are Marcie B. Weiss, the appellant, by attorney David R. Bass, of Thompson Coburn LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$6,912
IMPR.: \$44,023
TOTAL: \$50,935**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 1,878 square feet of living area. The dwelling is 69 years old. Features of the home include a full unfinished basement, central air conditioning and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on five comparable properties described as two-story masonry or frame and masonry dwellings that range in age from 79 to 87 years old. The comparable dwellings range in size from 1,600 to 2,098 square feet of living area. Features include full finished or unfinished basements and 1 to 1.5-car garages. Two of the comparables have finished recreation rooms in the basement and four comparables have a fireplace. The comparables have improvement assessments ranging from \$33,337 to \$45,306 or from \$18.04 to \$22.16 per square foot of living area. The subject's improvement assessment is \$23.44 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 60 to 84 years old. The dwellings range in size from 1,058 to 1,828 square feet of living area. Features include full basements, one of which has a finished recreation room. Three of the comparables have central air conditioning and two have fireplaces. One comparable has a one-car garage and one comparable has a 2.5-car garage. The comparable properties have improvement assessments ranging from \$22.61 to \$25.56 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Property Tax Appeal Board finds that the comparables submitted by the appellant should be given less weight in the Board's analysis due to the age differences between the comparables and the subject property. The five comparables range in age from 79 to 87 years. The subject property is 69 years old. In addition, all five of the appellant's comparables are inferior to the subject in that they do not have central air conditioning. The comparables have improvement assessments ranging from \$18.04 to \$22.16 per square foot of living area, and all would require an overall upward adjustment to their respective per square foot improvement assessment.

The Board finds the comparables #1, and #4 submitted by the board of review were most similar to the subject in size, features and age. Comparable #3 is older than the subject and inferior to the subject in age, central air conditioning and lack of garage. Comparable #2 is given less weight due to its vast size differential when compared to the subject. Comparables #1, #3, and #4 had improvement assessments that ranged from \$22.61 to \$25.56 per square foot of living area. The subject's improvement assessment of \$23.44 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in these comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
