

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Zhihong Lin
DOCKET NO.: 07-23749.001-R-1
PARCEL NO.: 05-33-218-046-0000

The parties of record before the Property Tax Appeal Board are Zhihong Lin, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,798
IMPR.: \$ 30,054
TOTAL: \$ 40,852

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 49-year-old, two-story style single-family dwelling of frame and masonry construction containing 1,454 square feet of living area with amenities that include one and one-half baths, a full unfinished basement, central air conditioning, and a two car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of masonry construction ranging from 47 to 52 years old. The features of comparable dwellings include one and one-half baths and central air conditioning; two have basements, one has a fireplace and three have garages. The comparables range in size from 1,236 to 1,682 square feet of living area and have

improvement assessments ranging from \$19.06 to \$20.26 per square foot of living area. A copy of the subject's 2007 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$30,054, or \$20.67 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of two-story style single-family dwellings of frame and masonry construction. These properties range in size from 1,454 to 1,462 square feet of living area with features such as one or two full baths, half baths, full unfinished basements, central air conditioning, and fireplaces; two also have garages. The comparables have improvement assessments ranging from \$21.13 to \$22.70 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board finds that the board of review's comparables are the most similar in style, construction type, size and amenities when compared to the subject. The Board accords these properties the most weight. The Board finds the remaining improvements less similar in construction type size and amenities when compared to the subject and accords these properties less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject

dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
