

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Ganas
DOCKET NO.: 07-23750.001-R-1
PARCEL NO.: 02-29-201-014-0000

The parties of record before the Property Tax Appeal Board are Chris Ganas, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$16,950
IMPR: \$121,100
TOTAL: \$138,050

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 52,969 square foot parcel of land improved with a 17-year old, two-story, masonry, single-family dwelling. The improvement contains 6,698 square feet of living area, and four full and two-half baths. Additional features include air conditioning, four fireplaces, a full unfinished basement and a three and one-half car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information, as well as black and white photographs, on a total of three properties suggested as comparable. The properties are located within three blocks of the subject. The properties are improved with two-story, masonry or frame and masonry, single-family dwellings. They range in age from 15 to 22 years and contain from 6,339 to 7,370 square feet of living area with two full and two-half baths to four and one-half baths. The properties range in improvement assessments from \$14.96 to \$16.88 per square foot of living area. The subject's

improvement assessment is \$18.08 per square foot. The properties also contain: air conditioning, one or two fireplaces, full, finished or unfinished basements, and two or three-car garages. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$121,100 or \$18.08 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable and located within the subject's neighborhood. The properties are improved with two-story, masonry, single-family dwellings. The properties are 23 and 24 years old and in size from 5,644 to 7,310 square feet of living area, with two full baths and two-half baths to four and one-half baths. The properties also include partial or full, finished or unfinished basements, air conditioning, two or three fireplaces, and and three and one-half to four car garages. The properties have improvement assessments ranging from \$19.08 to \$19.18 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In addition, the board's analysis indicated that the subject as well properties #1 and #3 were accorded a deluxe condition ranking by the assessor's office while property #2 was accorded an average condition without further explanation. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of six properties suggested as comparable to the subject. The PTAB finds the appellant's comparables and the board of review's comparable #2 most similar to the subject in improvement size, design, proximity, and age. These comparables ranged in improvement assessments from \$14.96 to \$19.18 per square foot. The subject's improvement assessment at \$18.08 per square foot is within the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the

subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
