

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nihau Tanaka
DOCKET NO.: 07-23754.001-R-1
PARCEL NO.: 04-32-403-010-0000

The parties of record before the Property Tax Appeal Board are Nihan Tanaka, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,618
IMPR.: \$71,796
TOTAL: \$81,414

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 10,019 square foot parcel of land improved with a seven-year old, two-story, frame, single-family dwelling. The improvement contains 4,632 square feet of living area, and two and one-half baths. Additional features include air conditioning, a fireplace, a full unfinished basement and a two-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of four properties suggested as comparable. Three of the four properties are listed as within one mile of the subject and #4 is located 0.15 blocks from the subject. The properties are improved with two-story, masonry, single-family dwellings. They range in age from two to seven years; contain from 4,479 to 4,747 square feet of living area with two and one-half to four and one-half baths and in improvement assessment from \$13.40 to \$18.47 per square foot of living area. The subject's improvement assessment is \$21.76 per

square foot. The properties also contain: air conditioning, one to three fireplaces, full finished or unfinished basements, and one two to three and one-half car garages. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$100,805 or \$21.76 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood one of which is on the subject block. The properties are improved with two-story, frame, single-family dwellings. The properties are four or five years old; in size from 4,190 to 4,257 square feet of living area; with two and one-half to three and one-half baths. The properties also include full unfinished basements, air conditioning, one fireplace, and two-car garage areas. The properties have improvement assessments ranging from \$22.03 to \$24.79 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparables most similar to the subject in improvement size. These comparables ranged in improvement assessments from \$13.40 to \$18.47 per square foot. The subject's improvement assessment at \$21.76 per square foot is above the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
