

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Edward Sclamberg
DOCKET NO.: 07-23985.001-R-1
PARCEL NO.: 11-18-421-029-0000

The parties of record before the Property Tax Appeal Board are Edward Sclamberg, the appellant, by attorney Stephanie Park, of Park & Longstreet, P.C. of Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,659
IMPR: \$89,340
TOTAL: \$109,999

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 2,701 square feet of living area. The dwelling is 40 years old. Features of the home include a partial basement finished with a recreation room and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on twelve comparable properties located in the "same neighborhood" as the subject. The comparables consist of two-story masonry or frame and masonry dwellings that range in age from 19 to 59 years old. The comparable dwellings range in size from 2,751 to 3,650 square feet of living area. Five comparables have a full basement of which one is finished with a recreation room and seven comparables have a partial unfinished basement. Each comparable has a 2-car garage and one to three fireplaces. Eleven comparables have central air conditioning. The comparables have improvement assessments ranging from \$23.69 to \$31.64 per square foot of living area. The subject's improvement

assessment is \$33.08 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$109,999 was disclosed. The board of review presented descriptions and assessment information on four comparable properties, three of which were located "1/4 mile" from the subject. The comparables consist of two-story masonry or frame and masonry dwellings that range in age from 28 to 52 years old. The dwellings range in size from 2,138 to 3,278 square feet of living area. Each comparable has a 2-car garage. Three comparables have a full unfinished basement and central air conditioning. One comparable has a partial basement finished with a recreation room. Three comparables have two or three fireplaces. These properties have improvement assessments ranging from \$28.77 to \$33.58 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #2, #3, #4, #5, #6, #7, #8, #9, #10, #11 and #12 submitted by the appellant and comparables #1, #3 and #4 submitted by the board of review to be dissimilar in basement finish and/or type when compared to the subject and were given less weight. The Board finds comparable #1 submitted by the appellant and comparable #2 submitted by the board of review were more similar to the subject in location, size, exterior construction and features. These comparables had improvement assessments that ranged from \$23.69 to \$33.58 per square foot of living area. The subject's improvement assessment of \$33.08 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the

effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the appellant disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
