

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bill Henke
DOCKET NO.: 07-24077.001-R-1
PARCEL NO.: 09-29-302-128-0000

The parties of record before the Property Tax Appeal Board are Bill Henke, the appellant, by attorney Scott Longstreet, of Park & Longstreet, P.C. in Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,976
IMPR.: \$ 31,049
TOTAL: \$ 40,025

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 34-year old, one-story, frame and masonry, single-family dwelling. It contains 1,500 square feet of living area and is situated on a 9,350 square foot lot. Features include two full baths, four bedrooms, central air conditioning, a full, unfinished basement, and a detached two and one-half car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted descriptive and assessment data for eight suggested comparables. The properties are improved with a one or one and one-half story, frame, masonry or frame and masonry, single-family dwelling, all of which are located in the subject's neighborhood. They range: in age from 34 to 68 years; in size from 1,513 to 1,723 square feet of living area; and in improvement assessment from \$16.86 to \$19.59 per square foot of living area. The subject's improvement assessment is \$20.70 per square foot of living area. Amenities for the suggested

comparable properties include one full to two and one half-baths, a full, unfinished basement for three properties, central air conditioning for two properties, one fireplace for three properties, and a one to three-car garage. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's improvement assessment of \$31,049 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment data, as well as black and white photographs, relating to four suggested comparables located within the subject's neighborhood. The properties are improved with a one-story, frame and masonry, single-family dwelling. They range: in age from 39 to 43 years; in size from 1,383 to 1,535 square feet of living area; and in improvement assessment from \$21.30 to \$23.21 per square foot of living area. Amenities for the properties include one and one half or two and one half-baths, three or four bedrooms, a partial or full, finished or unfinished basement, central air conditioning, one fireplace for two properties, and a two-car garage.

At hearing, the appellant's attorney indicated that the appellant's comparables #1, #2, #3, #5 and #7 are within three blocks of the subject and proffered a map marked "Exhibit A" to show the location of the appellant's and board's comparables in relation to the subject property. The board of review rested on its evidence previously submitted.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of 16 comparable properties for the Board's consideration. The Board finds that comparables #4, #7 and #8 submitted by the appellant as well as comparable #2 submitted by the board of review are most similar to the subject in design, exterior construction, size, and/or amenities. They contain between 1,513 and 1,568 square feet of living area. In analysis, the Board accorded the most weight to these comparables. These comparables ranged in improvement assessment from \$18.61 to \$21.30 per square foot of living area. The subject's improvement assessment at \$20.70 per square foot is within the range established by these comparables.

After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
