

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Faycurry
DOCKET NO.: 07-24202.001-R-1 through 07-24202.002-R-1
PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are George Faycurry, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

ANALYSIS

The subject property is improved with a 51-year old, one-story, masonry, single-family dwelling. It contains 1,593 square feet of living area and is situated on a 3,690 square foot lot. Features include two and one half baths, four bedrooms, a partial basement with a formal recreational room, one fireplace, central air conditioning, and an attached two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted descriptive and assessment data, as well as black and white photographs, for three suggested comparables. The properties are improved with a one or two-story, masonry or frame and masonry, single-family dwelling all of which are located within a three block radius of the subject. They range: in age from 51 to 55 years; in size from 1,621 to 1,733 square feet of living area; and in improvement assessment from \$19.74 to \$21.60 per square foot of living area. The subject's improvement assessment is \$23.92 per square foot of living area. Amenities

for the suggested comparable properties include one or two full baths, a full or partial, finished or unfinished basement, one fireplace and central air conditioning for two properties, and a two-car garage. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's improvement assessment of \$38,104 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment data relating to three suggested comparables located within the subject's neighborhood, one of which is located within a one-quarter mile radius of the subject. The properties are improved with a 53-year old, one-story, masonry, single-family dwelling. They range in size from 1,484 to 1,682 square feet of living area and in improvement assessment from \$24.29 to \$25.63 per square foot of living area. Amenities for the properties include one and one-half to two and one half baths, three or four bedrooms, a full, finished or unfinished basement, central air conditioning, one fireplace for two properties, and a two-car garage.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of six comparable properties for the Board's consideration. The Board finds that comparables #2 and #3 submitted by the appellant, as well as comparables #1 through #3 submitted by the board of review, are most similar to the subject in style, age, and/or amenities. They are one-story, masonry or frame and masonry, single-family dwellings. In analysis, the Board accorded the most weight to these comparables. These comparables ranged in improvement assessment from \$21.11 to \$25.63 per square foot of living area. The subject's improvement assessment at \$23.92 per square foot is within the range established by these comparables.

After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v.

Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
